

COSSAP Altarum TTA TABLE

Altarum:

Altarum is a national nonprofit, mission-driven organization dedicated to creating and implementing solutions to improve health among publicly insured and vulnerable populations. Altarum relies on BJA funds to establish and maintain a national training and technical assistance center (TTA) to support and promote peer recovery support services (PRSS) partnerships in criminal justice and child welfare settings. Altarum assists BJA COSSAP grantees and other local, state, and national entities that are combatting opioid and other substance use crises to incorporate PRSS into their efforts, and as a component of effective programs, by providing ongoing remote and on-site TTA to site-based COSSAP grantees interested in incorporating a peer recovery component into their projects.
