Administration Priorities

- "President Biden's Executive Order 13985 (Advancing Racial Equity and Support for Underserved Communities Through the Federal Government), which established that affirmatively advancing equity, civil rights, racial justice, and equal opportunity is the responsibility of the whole of our government. To further advance equity within the Federal Government, this order establishes that it is the policy of my Administration to cultivate a workforce that draws from the full diversity of the Nation."

What is meant by behavioral health?

according to SAMHSA

 The term "behavioral health" in this context means the promotion of mental health, resilience, and well-being; the treatment of mental and substance use disorders; and the support of those who experience and/or are in recovery from these conditions, along with their families and communities

The Problem:

Why is DOJ concerned about behavioral health?

The Solution:

Best Practice Programs, Resources, and Education

How can you help?

Deploy programs that reduce substance use and increase behavioral health interventions.

Use validated screening and assessment tools at the jail to identify people with behavioral health conditions early.

Plan and Implement a Police Mental Health Collaboration Program

- Advance racial equity issues in its approach to drug policy.
 - Support evidence-based prevention efforts to reduce youth substance use.
 - Reduce the supply of illicit substances.

Expand access to treatment programs and other behavioral health interventions, including medication-assisted treatment.
